

# Emerge Stronger – Team Reengagement Activity

## Revitalize Your Team Post-Pandemic

### Intended Outcomes:

- Increase self-reflection and learning during this difficult time
- Improve team engagement and retention post-pandemic
- Build team cohesion with an inclusive lens
- Encourage a growth mindset by promoting reflection and learning
- Generate ideas for the future

As we emerge from the shadows of this pandemic it is important that we create the space to **pause, reflect and learn** from our experiences. Like any challenge or crisis, if we take the time to learn from our journey, we can capitalize on the learning to get even better.

We have developed a process to guide teams through a series of exercises and discussions to help individuals to **reflect** on the last few months; **reintegrate** the team by sharing, learning and growing with their team members and then with the learnings front of mind, **reimagine** what the future could be for the team and the organization as a whole.

### Package includes:

- ½ Hour prep call with team leader
- 2 hour highly interactive virtual session
- Pre-work exercise for all participants
- Follow up summary and screen captures of discussions
